ABOUT

Nationally recognized academic, research and outreach programs to solve contemporary issues in:

- food production
- food quality
- food safety
- nutrient function
- applications related to health and chronic disease prevention.

Success is based on a strong commitment to excellence and the application of knowledge and expertise in classrooms, laboratories and communities.

PROGRAMS

Undergraduate: Bachelor's degrees in dietetics, food science and nutritional sciences.

Graduate: Master's and Ph.D. degrees in food science and human nutrition.

The Institute for Food Laws and Regulations offers two online, graduate-level certificate programs:

- Certificate in International Food Law
- Certificate in United States Food Law

STUDENTS

- Take part in one or more paid internships.
- Participate in study abroad programs.

GIVING OPPORTUNITIES

There are various ways to show your support of faculty and students, including:

- Creation of the Fruit and Vegetable Mobile Food Laboratories.
- \$4 million endowed chair.
- \$2 million endowed professorship.
- Graduate student and teaching assistant.

WAYS TO GET INVOLVED

LEARN: A desire for lifelong enrichment marks a true Spartan. A wide variety of programs are available in person and online for continues learning.

GET TOGETHER: On campus and throughout the world there are many opportunities for Spartans to connect with one another.

GIVE BACK: Spartans make a difference. Join our ranks of Spartans who are enhancing the MSU experience for students, faculty and staff.

TRADITIONS: There are many ways for alumni and fans to show their support of the university.

RESEARCH

Faculty provide research supporting several food and health areas, including:

- food allergies
- reproductive health
- children's health
- food safety
- food policy

OUTREACH

- Efforts in food science and human nutrition provide knowledge and educational programming to the citizens of Michigan.
- Current activities offer information to industry and consumers to assure a safe and healthy food supply and to apply principles of health and wellness to families and communities.
- Faculty also provide outreach through the MSU Product Center for Agricultural and Natural Resources — established in 2003 to help entrepreneurs and established companies develop and commercialize high-value, consumer-responsive products and businesses in the agriculture and natural food sectors
