

2013 BHEARD Scholar  
**Tum Nhim**

## Profile

<b>Position:</b>	Research Officer
<b>Institution:</b>	The Learning Institute
<b>Country:</b>	Cambodia
<b>MSc:</b>	Uppsala University, Sweden
<b>Mentored by:</b>	US: CAMBODIA:

### *Research Area: Natural & Environmental Resources*

BHEARD PROGRAM START DATE: August 2013

HOMETOWN: ??, Cambodia

UNDERGRADUATE EDUCATION: Institute of Technology of Cambodia

GRADUATE EDUCATION: Uppsala University, Sweden

RESEARCH INTERESTS: "Climate Change, Water Management and Food Security": Water is a cornerstone and is the determinant of farmers' food security, especially for countries whose agriculture heavily depends on rainfall. Tum's main research interest is to see how climate change would affect sustainable water management and threaten farmers' food security.

PERSONAL STATEMENT: Tum believes that within the context of current global environmental change, interdisciplinary research incorporating both human and natural dimensions should be an effective tool to inform policy, and this will shape his future career goal as an interdisciplinary researcher!

When Tum is not working he enjoys listening to classical music and reading the news.
