

Agriculture, Food and Natural Resources Education Master of Arts Degree

Department of Community Sustainability

www.csus.msu.edu

The Department of Community Sustainability offers a Master of Arts (MA) Degree as a way for individuals to advance professional knowledge through education in the context of agriculture, food and natural resources. The AFNRE MA offers a program of study with foundational education courses in youth leadership, experiential learning, and laboratory learning in the context of agriculture, food and natural resources.

Agriculture, Food and Natural Resources Education MA

A minimum of 30 credits is required for the degree under Plan B. The student's program of study must be developed in cooperation with and approved by the student's guidance committee and must include the requirements specified below.

Agriculture, Food and Natural Resources Education Master of Arts Degree

The Master of Arts program in Agriculture, Food and Natural Resources Education (AFNRE) is designed principally for persons who wish to acquire advanced professional knowledge related to AFNR in educational settings. This master's program in AFNRE consists of (1) practice-centered inquiry in professional, interdisciplinary, and foundational studies of AFNR, and (2) inquiry in educational settings. The program is designed for certified teachers and other educators who wish to continue their professional studies in agriculture, food and natural resources education.
