

# GRAIN BIN RESCUE TRAINING PROGRAM

PROGRAM BY NATIONAL EDUCATION  
CENTER FOR AGRICULTURAL SAFETY

This training is designed for first responders — including firefighters, EMS personnel, and law enforcement — who may be called to respond to grain bin emergencies. Anyone involved in agricultural rescue operations or rural emergency response will benefit from hands-on instruction specific to grain entrapment and confined space rescue scenarios.

Participants will learn about grain bin design and structure, as well as the four most common ways that people become entrapped in grain bins. The hands-on portion of the training covers lockout/tagout procedures and extrication of a fully engulfed and partially engulfed victim. Full NFPA compliant gear, hearing protection, and safety glasses are required to participate in the hands-on portion of this training.
