## 2015 Garden Day!

**Saturday August 1**

We are very excited to host **Rick Darke** as the key-note speaker for our 2015 Garden Day. Rick has recently teamed with Doug Tallamy to co-write "**The Living Landscape: Designing for Beauty and Biodiversity in the Home Garden.**" The book has just been released and reviews are excellent. Rick is an amazing photographer and plant expert (what a combination of talents!) and Doug's story of increasing our home biodiversity to support our local ecosystems is inspiring.

We will have a wealth of Garden Day workshops and you will be able to select your two favorites. The complete program will be available this spring!
