MARKET POULTRY PROJECT | Growth Analysis

Name: _____

Fair Age (As of 1/1 current year): _____ Birth date: _____
Mo. Day Year

Number of Years in 4-H: _____

4-H Club: _____

4-H Leader: _____

Record Started: _____
Mo. Day Year

Record Closed: _____
Mo. Day Year

MICHIGAN STATE UNIVERSITY | **Extension**

MSU is an affirmative-action, equal-opportunity institution.

Why Keep Records?

This record is a part of your 4-H Project. By keeping records up to date, you will be able to see how much progress you make as you set goals and work to accomplish them.

Keeping good records on your project will:

- Help you learn about animals, their rate of growth, the feed they require, the cost of the feed and their habits.
- Let you know if you made or lost money and how much.
- Improve your management practices.
- Give you a record of your project activities.

Objectives:

To let 4-H Members:

- Experience the obligation and responsibility required in a livestock enterprise.
- Experience and cope with the “values” and “attitudes” of responsibility in a relatively unsupervised environment. Supervision will be on a periodic basis.
- Contribute to the family table with meat or to experience the marketing process and system through the sale of the product.
- Experience competition through showing the animal at local area organization sponsored shows, the fair and statewide shows.

Keep this record as part of your Personal 4-H Records. This information is helpful for you to plan future year’s market projects, as well as if you ever apply for 4-H awards or a 4-H scholarship.

Remember- Records are no better than what YOU put into them!

Leaders Comments:

Management Section

What type of brooder guard was used? _____

What type of heat source was used? _____

How much light was given per day? _____ hours

What type of litter material was used? _____

How many times was the litter changed? _____

Did you change the type of feeders / waterers used as the birds grew? ____ yes ____ no

If yes, describe changes _____

Did you add anything to the water? ____ yes ____ no

If yes, what did you add and why? _____

Survival Rate = # Birds alive (Final Week) / Total # of Birds Purchased x 100

Survival Rate = _____ / _____ x 100 = _____ %

Feed Section

What kind of feed did you use? (commercial, home grown, etc.) _____

Name of the feed company if you used a commercial feed? _____

Total Cost for Health Expenses		

Miscellaneous Costs

(include all expenses not reported elsewhere: litter, light bulbs, etc.)

Date	Description	Amount
Total Miscellaneous cost		

Grand Total: _____

Market Project Calculations

Calculate the following...

Average Daily Gain (ADG):

Survival Rate Chart: (Final Week, column 5) – (Week 1, column 5) / Number of days birds were raised. Show your work.

Feed Efficiency:

Total lbs feed used / Total weight gain (Survival Rate Chart: Final Week, Col. 5 – Week 1, Col. 5) Show your work.

Financial Summary

Cost of Birds \$ _____

Health Expenses \$ _____

Feed Costs(Total)** \$ _____

Miscellaneous Expenses \$ _____

*** Remember to subtract the value of any unused feed*

Production Cost = cost of Birds + health expenses + feed costs + other expenses

Your Production Cost = \$ _____

Cost per Pound = Production Cost/Total Weight of Grown Birds*

Your Cost per Pound = \$ _____

** Take the weight of one average sized bird and multiply it by the number of birds left at the end of your project.*

Quality Assurance Statement

I certify that my animal projects are drug free by Federal Food and Drug Administration standards. I have followed all withdrawal periods for animal health products and substances used; practiced good animal husbandry (fed and watered regularly, provided shelter); and my project has been ethically and humanely cared for (given roughage, no unethical surgical alterations, no drenching, no rubbing of methanol and hitting with a card). If my leader, the superintendents or judges feel that I have not followed these rules, I acknowledge and accept that my animal may be subject to drug and residue testing or further investigation. Upon a positive confirmation or proof, I understand that the penalties will consist of the following: responsibility for the cost of the testing; forfeiture of all prize money, trophies, and sale and/or market value premiums; prompt removal from the fairgrounds; and loss of privileges to show at the Jackson County Fair.

My parents or guardians assume equal responsibility for following these and other prescribed guidelines set by the fair for these projects.
