Please describe below a 4-H club activity that your 4-H club did during this past 4-H year (Sept. – August) which was designed to educate your club members about a project area or broader issue. Examples: a character education workshop, a learning game designed to teach entrepreneurship, a video, speaker, tour, trip, demonstration, hands-on practice, or similar activity designed to teach the club members skills and/or knowledge, or change behaviors/attitudes. Include sources of educational information, how you adapted it for different ages and as many details as possible. Tell us who, what, when, where, why, and how - to help the committee in selecting the best educational program. If your program included project education but also went into broader concepts – like how to show a dog and ethics of showing, please include that.
