## FOCUS ON PRECISION

# TECHNOLOGY THAT PAYS

## AFFORDABLE REMOTE MONITORING SYSTEM

Younsuk Dong, Steve Miller, Lyndon Kelley

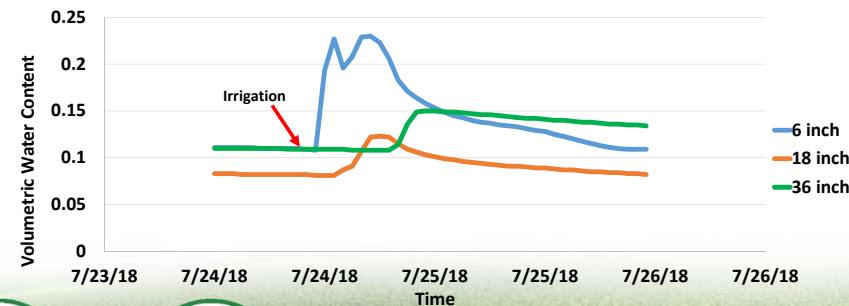

**Particle Electron** is a data logger that automatically reads and upload the data to the cloud at a selected interval.

### FEATURES

- Total cost of the system is around \$250
- Cost for data usage \$3/month
- Continuous data collection
- Remote data accessible
- Allows to connect up to 6 sensors

### APPLICATIONS

- Rain gauge
- Camera
- Leaf wetness
